

Vision

The institute aims for the all-round development of youth. It strives to:

- Foster enterprise skills and independent thinking in students.
- Mold students into morally upright and responsible citizens capable of leading and motivating others.
- Establish an opportunity hub with industry-academic collaboration for research and knowledge exchange.

Mission

DIPS IMT's mission is rooted in empowering students through quality education. Key objectives include:

- Confidence Building: Improving students' self-esteem through a mix of academic and co-curricular activities.
- Professional Training: Providing career-oriented training in various professional disciplines to create multi-skilled technical professionals.
- Practical Exposure: Bridging the gap between theoretical knowledge and real-world application through industrial visits and seminars.

Core Values

- Academic Excellence: Maintaining high standards in education validated by industry collaboration.
- Integrity and Discipline: Emphasising ethical values and social responsibility to create socially conscious leaders.
- Innovation: Encouraging a stimulating environment for research, innovation, and technological advancement.
- Holistic Development: Ensuring a balanced educational experience through technical clubs, sports, and cultural festivals
